# PORTABLE LOADING DOCK

The standalone Portable Loading Dock Ramp is designed for forklifts to load or off-load product from tractor trailer, container or rail cars.

This one piece ramp and platform combo allows for the forklift to completely level off before entering the trailer.

# MOBILE YARD RAMP

The standalone Mobile Yard Ramp is designed for forklifts to load or off-load product from tractor trailer, container or rail cars. This one-piece ramp and platform combo allow for the forklift to completely level off before entering the trailer. It also has the capability to be towed via forklift. With its design including wheels and forklift fork adaptor, this mobile ramp can be easily moved from trailer to trailer or stowed away at the end of the workday.

The standalone Portable Platform is designed to be added onto any of our portable loading docks. This addition will give you the ability to completely level off with the largest of crates or pallets before the forklift and product start the decline down the ramp. These platforms can also be used to create a multiple truck unloading platform for crossdocking purposes.

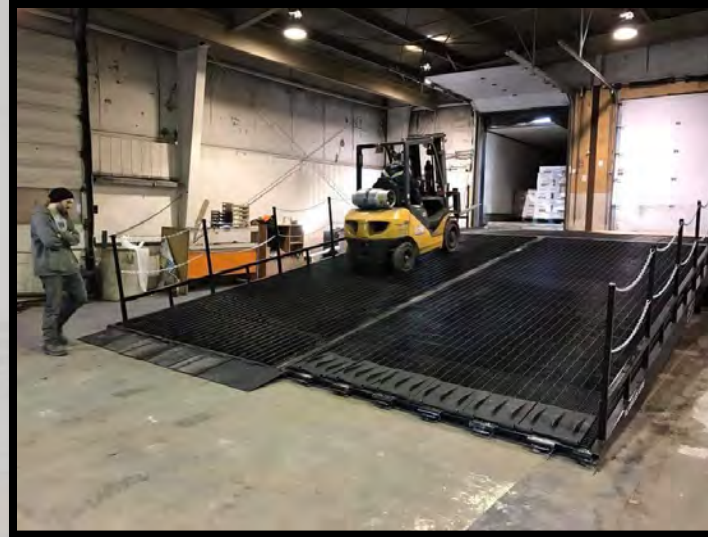

## STANDALONE PLATFORM

# CUSTOM RAMP SOLUTIONS

When none of our standard options fit into your project or yard ramp needs, allow our in house design team to help you create a solution to your project. A simple call to our staff to discuss your project will get the ball rolling toward a complete engineered solution for the most challenging ramp projects.

# ADD ON OPTIONS FOR ALL MODELS

## Add on options to each product include:

- OSHA and Work Safe Compliant Handrails – For personnel safety
- Ladders and Stairs (Lead to Platform Levels) – For easy access to platform levels
- Electric Motor – For simple height adjustability
- Wood Decking – For metal tracked equipment loading
- Steel Serrated Bar Grating Surface – Provides optimal traction in all weather conditions
- EOD – Edge of Dock Leveler – Provides easy leveling to all trailer heights
- Adjustable Legs – For manual ramp leveling to any trailer height
- Static Height Legs – When only single ramp height is required
- Removable Rub Rails – To give our clients the ability to connect multiple ramps or platforms together
- Custom Branding (paint, company logo's etc.)
